**Senator J. F. Miller Passes Quietly Away.**

## A SORROWFUL FAREWELL.

Scenes at the Death Bed—His Wife With Him Till the Last—To be Buried in California.

## A Special to the Herald by the Associated Press

WASHINGTON, March 8.—Senator John F. Miller, of California, died at his residence on Connecticut avenue in this city, at 12:30 this afternoon, after a prolonged illness. While his condition had been regarded as precarious for many weeks past, his death was sudden and unexpected. At no time since his arrival in this city has he been able to attend a session of Congress, or has he been regarded as entirely out of danger, but through such wonderful full recuperative powers and rallied so often from the attacks which were received at times as necessarily fatal, that his friends have been encouraged and even looked for his ultimate recovery. His death was the result of a complication of disorders arising primarily from the severe wound in the eye received during the war twenty-four years ago. The bullet still remains in his head, having been extracted two years before it could be extricated and the wound sapped his strength and rendered him an easy victim to the disease. After much slow and difficult system and asthmatic symptoms kept him in constant pain, Bright's disease subsequently began its insidious course and then diaphoretic disorders were developed, but through all his disease Senator showed such nerve and will-power that his physicians were encouraged to hope he might possibly recover. Several operations were performed, and the last was a spinal operation. When the storm passed over the city last night the Senator complained of feeling much worse, and complained of asthma. His physicians were shocked and said that he would not live long. This morning Dr. Pope made a careful examination of his patient and reported his condition as not favorable, that he had not even due to his age. The Senator remained quiet up to about 12 o'clock, when he became restless and asked for the doctor. A messenger was sent for Dr. Pope, but he had already gone. The Senator died away. He was conscious to the last, and took a sad farewell of his wife, who had been at his bedside all day. Mr. and Mrs. John F. Miller had been married in a few minutes before and were still present when he died. The Senator leaves a wife and one daughter. The remains will be taken to California for burial.

## PROFOUND REGRETS.

**Who Will be Senator Miller's Successor.**

SAN FRANCISCO, March 9.—The death of Senator Miller causes general and profound regret here, although the public was anticipating the reception of such information at an early date. There has been no opportunity to obtain an expression concerning who will be appointed by the chief executive as his successor. Governor Stoneman is at San Gabriel and Mr. Moreland, his private secretary, states the Governor has not by any word even intimated whom he would appoint in the event of Senator Miller's death.

## WHO WILL BE SENATOR MILLER'S SUCCESSOR.

SAF SAN FRANCISCO, March 9.—The death of Senator Miller has created a political vacuum of both parties as to his probable successor. The appointment is to be vested in Governor Stoneman, and we trust the new appointment will be made in the Legislature's next session, early in January next, selects a regular successor. The Senator elected by the next Legislature will only serve for the regular term of six years, and also for the remainder of his election until next March, when the date of the regular term begins. Among the most prominent candidates for the appointment are Senator St. George, and in the immediate vicinity of this city are ex-Governor W. T. Wallace, D. M. Mills and George Hearst, while the southerners of the state, headed by Los Angeles, are strongly in the lead. The claims of Mrs. White, of Los Angeles, Chairman of the Democratic State Central Committee. On the other hand, it is believed that as majority of the state candidates are residents of this section of the State, sufficient influence will be brought to bear on Governor Stoneman to induce him to make his selection from among the men in this neighborhood. It is further believed that George Hearst is a favorite and will receive the appointment to serve as Senator. The legislative meetings should be held in the opening of the new year.

**LET US HAVE A SENATOR FROM  
SOUTHERN CALIFORNIA.**

The death of Senator Miller imposes upon Governor Stoneman the responsible duty of appointing his successor who, of course, according to all usage, will be a Democrat. The Governor is now among us, taking stock of his vineyards and orange groves. If he looks around him in Los Angeles county he will find amongst his neighbors and friends splendid material for filling supplying this dignified post. Amongst Angelinos are a number of men who would grace it and give a good account of themselves. First amongst them the HERALD would name Mr. J. de Barth Shorb. Courteous, genial and able, with the finest social connections in the county, with a quite remarkable faculty for maintaining his views and enlisting attention, Mr. Shorb would make an ideal Senator.

Then there is the Knightly Del Valle who, though defeated for Congress last year, still maintains his hold upon the affections of Angelinos. Though he is a young man he has already developed considerable parliamentary ability.

The fact that the HERALD has had a momentary passage at arms with Mr. Stephen M. White does not blind it to the pre-eminent forensic and oratorical abilities of that rising young statesman. His claims ought to be fully considered.

Andrew Glassell would make a splendid Senator. So would Col. George H. Smith and others we could name.

Dismissing Angelinos, Byron Waters, or San Bernardino, would grace this exalted station. If ex-Senator Conn could be induced to abandon the private station at the command of the Governor this old Democratic war-horse would be hailed with enthusiasm.

Judge Arick, of Kern county, would fill the bill to perfection. There are many others whom we could name, but we have said enough to indicate the wealth of Southern California timber which is at Governor Stoneman's command.

We have a Southern California Governor. We have never, in all the long weary years, had a Senator from this section. He really ought to give us one, if only just for a change. Will he?

**The Real Boycott.**

While the Chinese question is being considered in the East from the standpoint of a sickly humanitarianism, and the word "boycott" has acquired an inexpressible odium to the namby-pamby people who are afraid to call a spade a spade, as a matter of fact the people of the United States have been exposed to this question.

Dr. Quinlan's Opinion of Chinese

There is no question of chicanery. This is the cause of chicanery. This causes the sensitive sub-utaneous covering of the muscles and ligaments of the joints, causing contracture and shifting posture, and so on, as a result of which there is a slight disability, which produces stiffness and distortion of the joints. No fact which experience has demonstrated in regard to the Chinese is more striking than their strength and endurance, nor is it a point established that they can eat up the poisons often used to arrest it, since the medicine contains only salutary ingredients. It is also a signal remedy for malarial fevers, consumption, dysentery, rheumatism, etc., and especially the poisons often used to arrest it, since the medicine contains only salutary ingredients.

**The Orange Interests of the South.**

**JOURNALISTS ON THE FIGHT.**

The New York "Times" Reviews the Chinese Question as to Its Detrimental Results to California Fruit-Growers.

**Special to the Herald by Associated Press JACKSONVILLE, Fla., March 8.—** At the annual meeting of the National Editorial Association held at Cincinnati a delegation was appointed to visit Florida and report to the Association their conclusions as to the effect of the recent freeze on the orange industry. The party has returned to Jacksonville and adopted and signed an official report, in which they say: "In the boundary of 600 miles, covering nearly 30,000 square miles of territory at nearly 100 miles distant, we visited various orange groves and examined the state of the trees and the extent of the damage done. The country traveled over comprises the entire orange producing district of the state, where all the orange trees have been killed. The trees, however, are of rapid growth and will be speedily replaced by new trees. In many cases the trees are broken and shattered in some degree by other trees the freeze was not sufficient to sever all the leaves on the trees. After giving specific details of other observations made, the committee said: "We unite you: "Our observations led us to the conclusion that the reports so unfavorable to the orange industry which fall in the first place, do not bear out the facts of a number of the orange growers themselves arising from insufficient information. The few weeks which have elapsed have changed the face of nature and lifted the cloud from Florida's great industry."

**TWO NEWSPAPER MEN FIGHT.**

A Novel Journalistic Way of Settling a Dispute.

SAN FRANCISCO, March 8.—Two journals of this city having quarreled over some matter regarding their respective papers, one of whom, accompanied by thirteen of their friends, met to settle the matter by a fight to a finish. The fight, however, was stopped at the round by the police, who brought the combatants in some degree by other trees the freeze was not sufficient to sever all the leaves on the trees. After giving specific details of other observations made, the committee said: "We unite you: "Our observations led us to the conclusion that the reports so unfavorable to the orange industry which fall in the first place, do not bear out the facts of a number of the orange growers themselves arising from insufficient information. **DYNASTIES AT WORK.**

NEW YORK, March 8.—At 2 o'clock this morning a fire broke out on the dock of the Monarch Steamship Line, at Jersey City. All the firemen of Jersey City and Hoboken were summoned to the scene, but it soon became evident they could not subdue the fire. Assistance was then asked from this city.

The large line steamer Egyptian Monarch was on fire. Before tugs could get her away from the dock the flames were so furious that the firemen had no chance to subdue them. The loss on the Monarch was \$10,000, and the latest estimate places the total weight which is total, at about \$25,000.

The Superintendent of the Monarch line docks said that just before the fire began he was on board of the ship, and that it was his opinion that it was among the freight that had been discharged from the Egyptian Monarch, supposed to have been from an inferior quality.
